

Benefits of SureGrip Floor Safety Solutions

- Since its inception SureGrip has had only **one** mission; improving the safety of walking/working surfaces.
- SureGrip has on staff a professional OSHA and ADA compliance instructor, who holds a PhD in engineering with an emphasis in safety. SureGrip also has on staff a Registered Safety Manager (RSM) and a Registered Safety Officer (RSO).
- All SureGrip field technicians are *certified in floor safety* by the International Board of Environmental Health and Safety.
- In-depth floor safety training is available for managers and/or supervisors.
- SureGrip gives ongoing support and consultation for any and all floor safety issues such as recommendations for safety shoes, color coded mopping system, pre-construction flooring evaluation, and safe floor cleaning instructions.
