

TREATMENT

SureGrip Treatment Formula

SureGrip Floor Treatment features a revolutionary new process that molecularly enhances the surface of ceramic tile, quarry, concrete and other mineral flooring. Traction is increased by raising the coefficient of friction resulting in a safer floor, especially under wet conditions. When used as part of a complete floor safety program the treatment will last for more that three years. SureGrip Treatment formula can help you meet OSHA and ADA guidelines for floor safety.

Recommended uses:

- ✓ **All mineral flooring including:**

Slate	Ceramic
Quarry	Brick
Terrazzo	Concrete

- ✓ **Porcelain Tubs**

The application of SureGrip Treatment formula requires extensive training. Never attempt to use this product without first viewing the SureGrip Treatment formula application video and/or thoroughly reading the training manual. Always test an inconspicuous area before proceeding. Contact SureGrip if you have any concerns about the use of this product.

DO NOT USE ON ANY SURFACE WITH FLOOR FINISH, SEALER, OR WAX.

Dilution Ratio	
	Use Full Strength

Data	
Product Name:	Treatment Formula
Appearance:	Blue
Odor:	Pungent
Ph in use dilution:	4.20
DOT Hazardous ingredients:	Ammonium Biflouride/Hydrochloric Acid
Vapor pressure (mm/hg):	N/A
Boiling point, F:	38.0555 °C
Solubility in water:	Complete
Flash Point:	>101 °C
